Ayyaz Ansari

IT Analyst @HCA Healthcare (Google/NHS/JPM/Ebrd/BofA/ Deutsche Bank/) | CEO @WebQueenz | Software, AI, Apps, Automation & E-com since 2017 | Director @LintonFilms | 2x Cannes Film Festival | 15 yrs Visual Media
West Drayton, England, United Kingdom

Summary

I'm a Technology Analyst, Filmmaker, and Digital Entrepreneur based in London, with over a decade of experience spanning IT infrastructure, software engineering, and visual storytelling. By day, I work as an IT Analyst at HCA Healthcare UK, delivering infrastructure support and systems integration across a multi-site network that serves major institutional clients including the NHS, Google, and JP Morgan facilities. My background includes software engineering and technical consultancy roles at SAPTEC Solutions, Accenture, and NatWest, alongside a Master's in Computer Software Engineering from the University of Hertfordshire. In 2022, I founded WebQueenz, a digital agency building custom websites, e-commerce platforms, and SEO-driven marketing strategies for small businesses. Behind the camera, I've spent 15+ years as a Director and Filmmaker at Linton Films, working across documentaries, TV spots, live events, and Bollywood behind-the-scenes production — with work featured at the Cannes Film Festival. I also support community and humanitarian work through the Al-Ansar Humanity Foundation. My work sits at the intersection of technical precision, business growth, and creative vision — I build the digital and visual foundations that help ideas and businesses scale.
